---

**KEY:** B, Ball; FD, Formal decorative; ID, Informal Decorative; C, Cactus; SC, Semi Cactus; St. C, Straight Cactus; IC, Incurved Cactus; Coll, Collarette; M, Miniature; MC, Miniature Cactus; MFD, Miniature Formal Decorative; MID, Miniature Informal Decorative; M ST. C, Miniature Straight Cactus; MO, Miniature Orchid; MS, Miniature Single; MSC, Miniature Semi Cactus.

Figures in parenthesis following the type of flower indicates the size of bloom as they grow for us. Also the word Holland at end of description in parenthesis indicates that we have in recent years imported the variety from Holland.

Our stock of certain varieties was sold very low last year, possibly leaving only a few for our own planting. Thus we have only a few roots of these varieties this year and not enough to list. Consult our 1947 list and write us your wants; we may be able to supply you.

One free root of our selection given with each root order, as mentioned in our advertisement in the Flower Grower. Does not apply to wholesale or plant orders. With a few exceptions this has always been our policy and we are glad to do it.

### **BARGAIN ROOT COLLECTION A**

One root each of 12 large and medium flowering varieties, our selection, all different, plus one free root of our selection making a total of 13 roots. Names on the roots with indelible. The **13 roots** for only **\$2.50** postpaid.

### **BARGAIN ROOT COLLECTION B**

One root each of 12 Pompon dahlias, our selection, all different, plus one free root of our selection making a total of 13 Pompon roots. Names on the roots with indelible. The **13 roots** for only **\$2.25** postpaid.

Orders of \$1.50 or more postpaid. For less than \$1.50 please include 15c for postage and packing.

**PLEASE STATE SHIPPING DATE.** All orders will be well packed and all roots are guaranteed true to name and in growing condition. If unsatisfactory upon arrival, or if they fail to start in a reasonable time, return at once and they will be replaced. However, very early shipments are sent at customer's risk of freezing, drying, or rotting.

Our gardens have been state inspected and have been found to be free of dangerously injurious insects and plant diseases.

Due to a poor root crop our stock of many varieties of dahlia roots is very limited this year, which makes it necessary that we **LIMIT THREE ROOTS TO A CUSTOMER.**

We suggest that you order your dahlias early.. All orders will be filled in rotation. We will be glad to reserve them for you and ship them at any time you desire.

To save possible disappointment and extra correspondence, may we suggest that you make second choice of roots when ordering.

Kindly send full amount with your order please. Our supply of dahlia roots is so limited this year that we will be unable to fill wholesale orders, thus **ALL PRICES ARE NET.**

If your dahlias have not been doing so well in recent years, it may be bugs, leafhoppers, etc. Try spraying every ten days for a while after they come up and see if they do not do better for you. We have used the new D.D.T. for the last few years with very good results.

We extend you a cordial invitation to visit our gardens during the growing season. Visitors are always welcome. Our gardens are located five miles east of Fairmont on the Winfield road at the village of Winfield.
